## Next Will be Democratic.

The Louisville Evening Post, claiming to be an independent newspaper, but which has without exception supported Republican nominees in every election since 1895, and which since that date has been accurate in most of its political prophecies, says editorially: "It is stated that the opinion is growing at Washington that there should be a change in the Republican leadership in the House. As far as the next House is concerned, the Evening Post believes that such a change could not now be made in time. The next House will be Democratic, probably by as large a majority as the present House is Republican. In the West Republican Congressmen will go down by the score. In the Central West the story is the same. Kentucky has three Republican Congressmen at present; in the next House only the Eleventh district will be represented by a Republican."—Mt. Sterling Gazette.

## As a Matter of Economy.

There are some other things that Mr. Taft might explain to Congress in regard to the mail business, says the Kent. O., Courier. He might save a little money by stopping the printing of job work that is being done at less than cost and hauled for nothing besides thus robbing legitimate country publishers, the ones he asks to do all his local advertising for nothing. There's the big morning daily newspaper mail trains out of the cities, too, not to speak of the tons of congressional records dumped into every newspaper office in the land, not one in ten thousand of which is ever opened, unless by some papers that are hard up for wraps for the single wrap list.

And next comes Washington's birthday.

## Where High Prices Come in.

A farmer took two hogs to a butcher and offered them for sale. A price was quickly agreed on, and the farmer said he would sell, but wanted the hams and shoulders. To this the butcher agreed and after the weight had been taken the desired parts of the hogs were cut off and handed to the farmer, who asked for the balance coming to him. After figuring a moment the butcher replied, "You owe me \$2.85." And the farmer had to pay it.

The butcher had bought the hogs at wholesale price and charged the farmer retail rates for the parts he reserved. In effect the farmer had made the butcher a present of two hogs, and had then paid him \$2.85 for certain parts of them.

## Our Share of It.

Kentucky may share in the \$12,000,000 which the State of Virginia is claiming from the National Government for portion in the vast territory ceded by Virginia out of which the States of Ohio, Indiana, Illinois, Wisconsin, and portions of Minnesota were carved. Gov. Swanson startled the country by sending in a special message to the Virginia General Assembly setting forth the old dominion's claim on the ground that the Government had expressly violated conditions under which Virginia ceded this territory. As Kentucky was a part of Virginia at that time, as was also West Virginia, it is figured that each of these States would come in for about one-sixth of the sum due the mother State. This would make Kentucky's share \$2,000,000.

The higher the price of steak goes, the more generous the butcher seems to be about including large sections of bone along with the cuts.

## THE THIRTEENTH CENSUS.

Every ten years since seventeen-ninety the United States Government has counted the people. At first the motive was almost wholly to make a basis for the apportionment of Congressmen. Little by little other matters were cared for in the census inquiry, and made of record in the published reports. And now the literature of the bureau is tremendously voluminous—and tremendously valuable.

In that first census Virginia had sixty per cent. more people than Pennsylvania could boast.

North Carolina had more people than either New York or Massachusetts—and the Puritan commonwealth led the Empire state in population, wealth and influence. Richmond was bigger than Brooklyn, and the centre of population was in Maryland. That centre has moved steadily west, digressing a little from decade to decade, to the north or to the south; and is now about half way across the southern part of Indiana. It is likely to move into Illinois in nineteen-ten.

There was no far departure from fact in that statement of Patrick Henry, when he exclaimed: "Three millions of people, armed in the holy cause of liberty, and in such a country as this we possess, are invincible to any foe—the enemy can stand against them." For there were three millions, and not many more when the first census was taken. Now it is believed by many that the thirteenth census will show more than a hundred million.

Indeed, the New York World "boils down" the probable results of the census with the words:

A nation with nearly 110,000,000 people living under or outside of the constitution, with 250,000 miles of railroad, 25,000 newspapers and other publications, with 20,000,000 children and youths in the schools, with a public debt of only \$11 per capita, and national wealth of more than \$1,000 for each person, which surpasses in total Britain and Germany combined and with half of the people living in their own homes on their own land.

Patrick Henry and his friends builded a great deal better and bigger nation than they had an idea of.

## Vivion-Kerr.

Mr. H. H. Vivion, of this county, and Miss Lena Kerr, daughter of J. D. Kerr, also of this county were married at the home of the bride Wednesday.

The endless letter chain scheme has been adopted by a Newport Ky., man to obtain a pardon for Henry Youtsey, who is serving a life term in prison for the murder of Gov. Goebel.

We have a full line of mens and boys hats in all of the new shapes and colors. You should see them. Hardwick & Co., Stanton, Ky.

Mr. and Mrs. S. T. Hall have gone to housekeeping on Mr. Hall's farm near Stanton.

## LOOKING OVER L. & E.

A Lexington press dispatch says: "It is reported here that the Pennsylvania Railroad Company is trying to buy the Lexington and Eastern Railroad, which extends from this city to Jackson, in Breathitt county, and that the object of a party of Pennsylvania officials, who passed through this city on their return from Jackson, was to look over the L. & E. with an eye to its purchase. The party, which is headed by D. S. Newhall, purchasing agent for the Pennsylvania system, stated that their object was simply to look over the lands which the Pennsylvania owns, and denied any intention of buying the L. & E. The general offices of the L. & E. are located in this city, and the fact the rumors of a possible sale are circulated without contradiction so close to headquarters lends some color to the report. The Pennsylvania system has a tract of land in the mountains on the Lexington and Eastern of 16,000 or 17,000 acres, and J. M. Corbin, a coal surveyor, has been engaged to make plats of the tract, which will, when finished, be sent to the headquarters of the Pennsylvania railway. The Pennsylvania railroad, it is said, has close relations with the L. & E. which would give them a connecting link between the L. & E. and the Pennsylvania system."

## Improvement at the Depot.

An addition to our depot is being built to accommodate the colored passengers. The favor will be greatly appreciated by the traveling public of Clay City. The L. & E. may always be depended upon to do the right thing when it is convinced what is right.

Prices in the Cincinnati hog market soared Tuesday until they reached the highest level since the Civil War. Top grade of hogs were quoted at \$9.25 to \$9.30 per hundredweight. Clear pork has advanced to \$25 a barrel, which is \$8 higher than a year ago.

Herman Newcomb's bill to substitute electrocution for hanging in the State of Kentucky passed the Senate. Senator Newcomb's bill to provide a penalty for those responsible for indigent children was also passed by the upper branch of the Legislature.

Representative Johnson, of Kentucky, forced Inspector Repp, of the Bureau of Animal Industry, to admit that the packers discriminate against all stock growers south of the Ohio River in prices paid for steers.

The sale at Charlie Welch's Thursday was well attended and articles brought fair prices. One 11 year old horse brought \$10; one 6 year old mare brought \$110; one cow brought \$37.50, one cow \$35; sheep sold for \$5.00.

## For Sale.

Dr. Martin announces the birth of a daughter to Mr. and Mrs. Oscar Woolery Wednesday, February 10.

## Is it Lost or Stolen?

We ask Mr. Taft this question: Why does the Government pay nine cents per pound to carry second-class mail matter through the mails—which means carrying it on railroads—when express companies, running their cars on the same train, at the same rate of speed, can carry that matter for one cent a pound and make a profit? We ask Mr. Taft to observe that the rate of the United States Express Company between New York and Chicago, one thousand miles, is \$2.50 for one hundred pounds. If it costs nine cents a pound, as Mr. Taft thinks to carry such matter, the charge of the United States Express Company would be nine dollars for a hundred pounds, plus a charge for profit, instead of two dollars and a half. Doesn't Mr. Taft think that if the United States Express Company, which makes huge profits and pays huge dividends, can carry one hundred pounds one thousand miles for two dollars and a half, the United States Government, which is not in business for profit, but for public convenience, ought to be able to carry one hundred pounds one thousand miles for one dollar? And we ask Mr. Taft to stop the railroads' stealing, and to stop the postoffice loss—not by making the general public pay more for their periodicals, but by allowing the railroads and others concerned to steal less.—Ex.

## Getting their Eyes Opened.

The Aldrich-Cannon tariff laws and Speaker Joe Cannon are very obnoxious characters with the people of the United States. This fact was recently demonstrated by a poll of the Republican and independent editors of the country conducted by the Chicago Tribune. The vote standing for Cannon was 577 and 3,194 against; for the Aldrich-Cannon tariff law 839, against it 3,463. It is simply this in proof: The will of one-fourth overrides the will and wishes of three-fourths of the people in this country. But that's Republicanism pure and simple. The principles of the Republican party are not understood by one-half its members, they are learning, however, and will by next fall be so educated that there will be elected a full Democratic Congress that will do something to the trusts and money sharks and something for the people.

The thrusting of "Uncle Joe" into outer darkness is not the easy matter some people think, perhaps. The disquieting circumstance is that "Uncle Joe" has every trust in the country back of him.

## For Revenue Too.

Caleb Powers may well be a Republican for the revenue there is in it as well as from principle. He fleeced thousands of dollars from members of his party when in jail awaiting his trial for conspiracy in the Goebel murder. He is now raising a great howl in his candidacy for Congress in the Eleventh. Republicans everywhere are finding him out and fast branding him. Warren Meek, of the Paintsville Herald, has distressed the supporters of Caleb Powers' candidacy for Congress by stating that the said Powers charged \$500 for delivering a Republican speech in Johnson county and adding the unkind comment that there is some wonder whether the effort was worth the price.

It is claimed by many that John Langley will get a fat appointment from the government and not run for Congress again. John denies this and says he will run, that there are some important matters he wants to vet get through Congress. Yes, just so, and it seems to us that that turnpike bill is one of them. You promised us faithful John, you know that if you were sent back to Congress you would get turnpikes for the mountain counties of your district. Come on, make good your widely advertised statement.

Senator Aldrich has just returned from visiting a number of Florida winter resorts. No doubt the gentle keepers thereof handed Mr. Aldrich a large dose of his increased-cost-of-living medicine.

The Congressman who whines that he "cannot live comfortably on \$7,500 a year," can make a big hit, by giving somebody else a chance to try it, anyway.

Usually the statesman who complains that all the trusts are fighting him is offering a strong bid to be loved for the enemies he has made.

Anyhow, the reduction of the salary of members of the tariff board from \$10,000 to 7,000 is a revision downward.

Costs only \$500,000 a year to carry Congressmen's letters, speeches and garden seeds. A mere bag-o'-mail.

## Then Give Us State-Wide Prohibition.

If the gentlemen who control Kentucky's whiskey interest will not let us have the county unit law, (and it begins to appear that they are smart enough to invariably find some way to block it), then it is probable that we will see a "bear-fight" for State-wide prohibition.

I have never yet decided that State-wide prohibition was expedient, although I believe the people have a right to it, if they want it. I have felt that I would be satisfied with the county unit bill, for the present, at least, but the way things are running, it looks as if all temperance folks would have to stand for the State issue.

The proposition is just this: We can whip the whiskey interests at the polls, but they can whip us in Legislature. Members of that body will help to put a bill to sleep who would never come square out and vote against it. We have got to do one of two things—either drag all the politicians out into the open and make them show their colors, or, get up a State-wide

prohibition wave that will run over them like a steam roller.

The temperance folks are either going to have a county unit law or State wide prohibition. I prefer the former, and am a little dubious about the latter, but if I can't get one, I'll sure go for the other. We had better think about it, and see if we can't all take this stand.—A. A. Bowman in Woodford Sun.

## Aids Nature

The great success of Dr. Pierce's Golden Medical Discovery in curing weak stomachs, wasted bodies, weak lungs, and obstinate and lingering coughs, is based on the recognition of the fundamental truth that "Golden Medical Discovery" supplies Nature with body-building, tissue-repairing, muscle-making materials, in condensed and concentrated form. With this help Nature supplies the necessary strength to the stomach to digest food, build up the body and thereby throw off lingering obstinate coughs. The "Discovery" re-establishes the digestive and nutritive organs in sound health, purifies and enriches the blood, and nourishes the nerves—in short establishes sound vigorous health.

*If your dealer offers something "just as good," it is probably better FOR HIM...it pays better. But you are thinking of the cure not the profit, so there's nothing "just as good" for you. Say so.*

## Nervous Headache

"I know from experience that Dr. Miles' Anti-Pain Pills will relieve severe cases of headache quickly." MRS. GEO. S. HENRY, Sullivan, Wash.

In many persons the least excitement, exertion or irritation causes headache. They cannot attend church, theatre, places of amusement, travel, or mingle in a crowd without suffering an attack of headache. The nerves of the brain are easily excited, and this irritable condition causes pain. Such persons should take

Dr. Miles' Anti-Pain Pills before starting out, or on the first indication of an attack. They invariably relieve all such misery. The first package will benefit; if not, your druggist will return your money.

"I want to wash my face."

The landlord directed him to a creek near by, and he went there for his ablutions, followed by several children, who stared at him in amazement.

The traveler washed his face and combed his hair, as best he could, with a pocket comb.

The children circled about him with wide-open eyes. Finally the largest boy said: "Say, mister, do you-all take all that trouble with yourself every day?"
